Technical note: As in the past three years, the course is 3000 meters long, measured to an accuracy of about 3 meters (the turnaround near building 62 was adjusted for the new start). Two Cronomix electronic printing timers were used, and the differences between them had an average deviation of 0.032 sec, and an rms deviation of 0.19 sec. The times printed above are the averages of the two timers.
